### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Wayne Bailey on March 14, 2008.

The application has been amended as follows:

Cancel claim 12, 13, 16, 17, 19-28, 31-34, 36-45, 47 and 48.

#### ***Allowable Subject Matter***

2. Claim 1-6 and 8-11 are allowed.

3. The following is an examiner's statement of reasons for allowance: The present invention is directed to a method for managing bandwidth within a distributed data processing system. The prior arts in the record fail to teach or make obvious to a method comprising dynamically deploying packet snooper object in association with a packet filter object and executing the dynamically deployed packet snooper objects at the set of devices to monitor bandwidth usage within a structure of the claim. These features are claimed in the independent claims 1-3 and render them allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
